

SENSAPHONE[®]

CottageSitter

Cottage monitoring over telephone lines with furnace control capabilities.

- Designed for programming versatility.
- Features variable alarm recognition and listen-in time, with alarm disable, security code access, remote sensing, and remote furnace control.
- Monitors power, temperature, and other important environmental conditions to protect cottage, cabin, or home.
- Automatically contacts you at up to 4 or 8 locations if unsafe conditions occur.
- Allows you to contact your system using any telephone, to receive status reports, listen in to on-site sounds, and control your thermostat.
- Helps you detect problems before they turn into disasters.

Now you can protect your cottage, home, or cabin even when you can't be there—The Sensaphone CottageSitter monitors your home or cottage—any unattended facility—to detect power failures, temperature extremes, intrusions, water incursion, sounds such as smoke and burglar alarms, and other conditions of your choice.

Alerts you immediately if problems arise—The Sensaphone CottageSitter automatically contacts you by phone at up to four different phone numbers, to alert you of unsafe conditions. The system communicates in voice-synthesized English, and even lets you listen in to actual on-site sounds.

Two models to choose from—Sensaphone CottageSitter 1104 monitors 4 inputs and calls 4 numbers. Sensaphone CottageSitter 1108 monitors 8 inputs and calls 8 numbers. Both control your thermostat!

CONDITIONS MONITORED:

- Temperature
- Humidity
- Electricity
- Water Incursion
- Smoke
- Sound
- Windows & Doors
- ...and more!

ALERT

UP TO 4 OR 8 NUMBERS:

If unsafe conditions occur, the CottageSitter will automatically dial up to four or eight numbers in sequence to advise you of the problem. Numbers may be up to 32 digits each, with your choice of pulse or tone dial-out.

COMMUNICATES OVER STANDARD PHONE LINES:

Call in for periodic status reports on all monitored conditions, using any telephone. The CottageSitter communicates in clear voice-synthesized English.

SENSAPHONE® CottageSitter

Sensaphone Setback Thermostat

(sold separately)

- Remote Controllable
- 1 Heat/1 Cool/1Fan
- Remote/Local Override
- Easy 4-wire Connection
- Compatible with CottageSitter 1104/1108

BUILT-IN FEATURES

- 4 or 8 User-selectable inputs, temperature or dry-contact
- Microphone monitors high sound alarms and enables remote listen-in
- AC Power failure sensing with variable recognition time
- Battery condition monitor
- Clock
- Thermostat control

ADVANCED CAPABILITIES

- User Programmable: Alarm recognition time, Call delay, Intercall delay, Message repetitions
- Temperature sensing in Fahrenheit (-20°F to 150°F), or Celsius (-29°C to 65°C)
- Individual temperature input calibration
- Nonvolatile memory for all programmed parameters

VERSATILE DIAL-OUT CAPABILITIES

- Alert sensors trigger pulse or tone dial-out automatically
- Dials up to 4 or 8 numbers, up to 32 digits each
- Continues dialing numbers in sequence, until acknowledged
- Call Progress: Intelligently detects ringing or busy signal
- Intelligent dial-out to beepers and pagers

EASY CONTROL ACCESS

- Keypad for local programming and status report
- Unit can be called from any phone to verify status of all monitored conditions
- Local or remote enabling/disabling of all dial-out conditions
- Can share a single phone line with an answering machine, allowing full operation of both units
- Programmable security code access
- Remote Control Switch for Furnace

SPECIFICATIONS

Size: 7½" W, 2" H, 8½" D

Batteries: (6) 1.5 Volt "D" cell alkaline (not included).

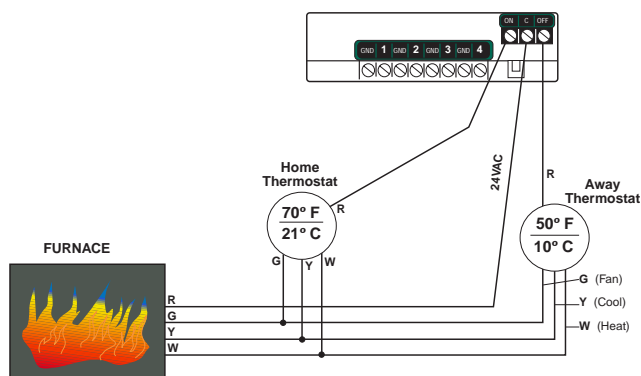

Telephone Interface: FCC approved RJ-11 plug-in modular connector with 6' cord.

Operating Range: Unit should be kept between 32° F and 120° F.

Temperature Sensing Range: -20° F to 150° F with remote temperature sensor.

Shipping Weight: 4 lbs.

Technical data subject to change without notice.

Optional Dual Thermostat
