INDOOR HUMIDITY SENSOR

Detect high or low humidity

This Wireless Humidity Sensor is designed to work exclusively with the Sensaphone 2800. This sensor includes a built-in radio transmitter and humidity sensor element for monitoring humidity wherever the device is installed. The sensor comes with three AAA alkaline batteries which will power the sensor for up to three years. An optional plug-in power supply is available. The batteries then become a backup if main AC power fails.
