

# TEMP ALERT TEMPERATURE SWITCH

## Monitor temperature ranges

The Temp Alert Temperature Switch can be used with all Sensaphone models to monitor air temperature from -30° to 130°F. Simply set the acceptable temperature limits for your application and when the temperature exceeds that setting, the sensor triggers an alarm. It requires no power for operation and multiple units may be wired in series to a single input.

## TECH SPECS

Name	TempAlert Temperature Switch
Sensor Temperature Range	-30° to 130°F   -34° to 54°C
Accuracy	± 3°F   ±1.7°C
Connection	Hardwired
Housing	Plastic
Dimensions	6.3 x 3.3 x 2"   158 x 83 x 50mm
Sensor Series	Contact Series

All specifications subject to change without notice
